

Differential Pressure Plus Inc.

Branford, CT, U.S.A

PG

piston style dp gauge

PG Standard Gauge

Vertical Calibration option with filter vessel mounting kit

Great for carts and other filters

Available Pressure Ranges

- (5 PSID-1,000 PSID)

Specs

- Teflon seal on Piston
- Aluminum, Brass, or Stainless
- Viton Seals or EPDM
- 3,000 PSI system pressure for Aluminum
- 6,000 PSI system pressure for stainless
- SPST Rating 100V/0.5A
- SPDT Rating 30V/0.3A
- Higher Ratings available Upon Request
- 175F Temperature Rating

Model Number System

- Standard polymer dial cases come with panel mounting hardware
- Stainless Steel Dial Case option available in panel and non-panel mount
- Specialty pressure ranges available upon request
- Custom Logos are no extra cost

XX - XXXX - XX - XX

Accessories Overview

Follower Pointer: Shows Max Reading

Color Band: Customizable 3 Color Arc

Mounting Bracket: For Walls or 2" Pipe

Liquid Fill: For Vibration or High Humidity

Standard Polymer Dial Case
(includes panel hardware)

Steel Dial Cases
(Available in Standard or Panel Mount)

SWITCH SETTING

Please follow these instructions when your differential pressure instruments are supplied with switch. The switches are normally factory set to save time at customer's end. However they are field adjustable.

CAUTION : Supply should not exceed switch rating. For higher supply, use of relay circuit is recommended.

SWITCH ADJUSTMENT

Switch adjustment screw is located on plastic cover.

Rotate the screw anti-clockwise to increase the set point and clockwise to decrease the set point.

One or two trials may be necessary to attain the exact set point.

Above procedure to be followed by putting the instrument on test bed or while in actual service.

NOTE : Instrument and switch has IP65 protection. PG7 or PG 9 glands provided for cables. Use cable sizes dia 3 to 6.5 mm and dia 4 to 8 mm respectively.

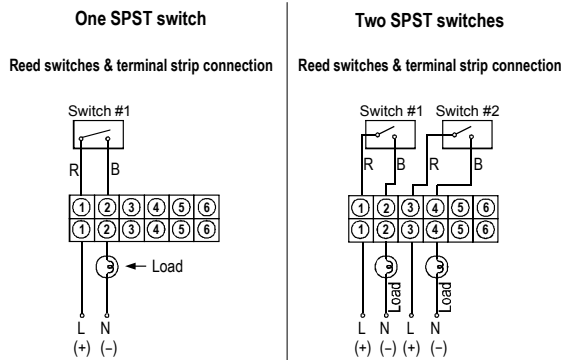

This model is **CE** certified.

SPST SWITCH

Specifications

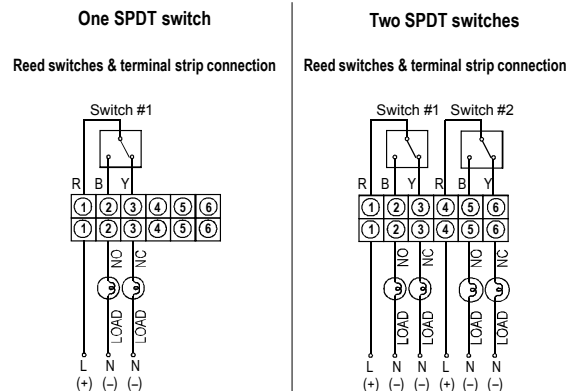

Switches are provided as per customer requirement. Please refer gauge label for switch specification.

SPDT SWITCH

Specifications

Switches are provided as per customer requirement. Please refer gauge label for switch specification.

R=Red, B=Black, Y=Yellow, L=Live or +ve supply, N=Neutral or -ve supply
 * Body to be suitably earthed while using gauge + switch and only switch.

2-1/2" DIAL SIZE

4-1/2" DIAL SIZE

6.0" DIAL SIZE
